## Abu Dhabi Utility Corridors Design Manual

---

### Chapter 1 - Introduction

Table 1.1:	Stakeholders, Roles and Responsibilities .....	5
Table 1.2:	Manual Overview .....	6
Table 1.3:	USDM Street Typology Examples .....	9

### Chapter 4 - Utility Corridors Requirements

Table 4.1:	Summary of Utility Corridor Location Rules .....	4
Table 4.2:	Summary of Utility Corridor Widths .....	5
Table 4.3:	Potable Water Corridors Requirements .....	8
Table 4.4:	Potable Water Corridors Allocation .....	8
Table 4.5:	Water Supply Appurtenance Installation .....	9
Table 4.6:	Wastewater Collection Corridors Requirements .....	12
Table 4.7:	Wastewater Collection Corridors Allocation .....	12
Table 4.8:	Irrigation Water Corridors Requirements .....	14
Table 4.9:	Irrigation Water Corridors Allocation .....	14
Table 4.10:	Stormwater Drainage Collection Corridors Requirements .....	16
Table 4.11:	Stormwater Drainage Collection Corridors Allocation .....	16
Table 4.12:	District Cooling Corridors Requirements .....	20

Table 4.13:	District Cooling Corridors Allocation .....	20
Table 4.14:	HV, MV/LV and Street Lighting Power Corridors Allocation .....	23
Table 4.15:	Telecommunication Corridors Allocation .....	26
Table 4.16:	Fibre Optic Corridors Allocation .....	28
Table 4.17:	Fibre Optic Corridors Categories .....	29
Table 4.18:	Gas Supply Corridors Allocation .....	32

### Chapter 5 - Utility Corridors Arrangements

Table 5.1:	Summary of RoW Widths for Typical and Minimum Streets .....	5
Table 5.2:	Typical Service Corridor Allocations – City Context .....	6
Table 5.3:	Typical Service Corridor Allocations – Town Context .....	8
Table 5.4:	Typical Service Corridor Allocations – Commercial Context .....	10
Table 5.5:	Typical Service Corridor Allocations – Residential/Emirati Neighbourhood Context .....	12
Table 5.6:	Typical Service Corridor Allocations – Industrial Context .....	14
