

7.8.5 ☒ If cycling routes are existing or planned (by DoT) through or in the vicinity of the development, include a drawing showing these routes and illustrate how the development and proposed measures support the use of the cycling facilities. (This could be measures such as cycling provisions en-route from the development to the cycling route, the provision of cycle stands at retail or office areas or the provision of a cycling through route within the development etc.).

7.9 *Conclusions and Recommendations*

7.9.1 ☒ Summarize trip generation, parking demand/ supply and any important facts about the development.

7.9.2 ☒ Summarize all findings of the report. Draw conclusions and show all measures, policies and strategies proposed to mitigate impacts.
