

<b>Local Species</b>	Local plants and adapted plants to the local environment.
<b>Low emitting and fuel efficient vehicle</b>	A vehicle approved by Dubai Road Transport Authority (RTA) as being low emitting or fuel efficient.
<b>Lux</b>	The international system unit of illumination, equal to one lumen per square metre.
<b>Mechanical system</b>	Those systems within a building which include components of mechanical plant or machinery. These systems include, but are not limited to, the HVAC system of a building.
<b>Mechanical ventilation (active ventilation)</b>	Ventilation provided by mechanically powered equipment, such as fans.
<b>Minimum Efficiency Reporting Value (MERV)</b>	Air Filter Minimum Efficiency Reporting Value (MERV) is an expression of the filtering efficiency of an air filter that has been evaluated using the ASHRAE Standard 52.2 Test Procedure. An air filter's performance is determined by comparing airborne particle counts upstream and downstream of the air filter (or other air cleaning device) under test conditions. A higher MERV rating equates to higher air filtration efficiency.
<b>Mixed mode ventilation</b>	A combination of mechanical and natural ventilation.
