

1. Submit three copies of request for Substitution for consideration. Limit each request to one proposed Substitution.
2. Submit shop drawings, product data, and certified test results attesting to the proposed Product equivalence. Burden of proof is on proposer.
3. The Engineer will notify Contractor in writing of decision to accept or reject request.

## **25.2 Part 2 Products**

### **25.2.1 General**

- A. Products List: Section 01300 - Submittals
- B. Name plates and other identifying markings shall not be affixed on exposed surfaces of manufacturer's items installed in finished spaces.
- C. All products shall be tested as required by the Specification. Additional testing may be requested by the Engineer at any time and at no extra cost.
- D. When required by the Specification or the Engineer, testing of products shall be undertaken by an independent organization or national organization.
- E. The Contractor shall allow for all costs associated with the testing of products including labor, transportation and the cost of the test itself.
- F. Samples for testing shall be taken at the place of origin, place of fabrication or from the site as required by the Engineer. Samples that are of value after testing shall remain the property of the Contractor. Samples used for testing may only be incorporated into the Works with the written approval of the Engineer.
- G. The Contractor shall provide all necessary facilities required for on-site testing of products.
- H. The Contractor shall ensure that products are made available for testing sufficiently in advance of intended use so as to allow for testing. Delays resulting from the time taken to test a product shall not be acceptable as cause for a claim.
