

INDEX

Flow rates and flush volumes402.0, Tables 4-1
 Improper location of308.0
 Indirect connection804.1
 Indirect waste804.0
 Installation of407.0
 Island909.0
 Joints316.0, 407.2, 408.3, 408.4
 Material of401.0, 406.3, 411.0
 Must be connected to sewer303.0, 304.0
 Must be provided with trap1001.0
 Overflows403.0
 Prohibited310.0, 310.5, 405.0, 410.3, 910.0
 Required412.0
 Setting316.3.1, 407.5
 Size of waste for702.0, 703.0, Table 7-3
 Special fixtures406.0
 Standards401.0
 Strainers and connections404.0
 Supply and waste connection, access to404.2
 Supply fittings407.7
 Unit equivalent610.3, 702.0, 703.0, Tables 6-7, 7-3, 7-4
 Water supply required601.0
 Pollution218.0
 Polyethylene (PE)604.1
 Polypropylene (PP), definition218.0
 Polyvinyl Chloride (PVC)218.0, 604.1, 701.1, 701.2
 Potable water:
 Definition218.0
 Protection of602.0, 603.0
 Supply required601.0
 Unlawful connection to602.0
 Pressure drainage connections prohibited805.0
 Pressure, excessive water608.2
 Pressure losses, water608.0
 Pressure regulator, when required608.2
 Pressure, regulator, gas1208.7
 Pressure-relief valve504.0
 Preventer, backflow204.0, 603.2
 Primary settling tank902.1
 Private or private use, definition218.0
 Private sewage:
 Capacity of systemAppendix G
 ConstructionAppendix G
 Disposal system218.0, Appendix G
 General103.5.1.3, Appendix G
 Location721.0, Table 7-6, Appendix G
 Private sewer, definition218.0
 Private water supply602.2, 602.4
 Prohibited:
 Concealment of defects309.2, 1208.5.5
 Concealment of work before inspection103.5.1
 Connections, rainwater305.2
 Connections, waste404.2-404.4, 801.1, 801.2, 805.0, 806.0
 Connections, water602.0
 Copper tubing, use of1208.5.2.3
 Damage to drainage system305.1, 313.0
 Defective material103.1.2.1, 301.1.1, 1213.4
 Direct drainage603.3.5, 801.1, 810.1
 Double trap fixture1004.0
 Drinking fountain location405.1

Fittings310.4, 316.4
 Fixtures310.4, 405.0
 Food waste disposal, connection to1001.3, 1014.1.3
 Industrial waste disposal306.0
 Joints and connections316.4, 604.6, 705.1
 Liquefied petroleum gas1212.0
 Pipes in masonry313.2
 Practices101.4.1.1.2, 310.0, 313.2, 313.4, 603.3, 714.0
 Receptors, location of804.1
 Trap joints1003.0
 Traps1004.0
 Trough type urinals405.2
 Urinals and water closets on
 combination waste and vent910.7
 Water piping in drainage or sewer trench720.0
 Zinc alloy components406.4
 Property line, termination of vent906.2
 Protection from:
 Corrosion313.1, 313.5, 1208.5.6
 Protection of:
 Piping materials and structures313.0, 1208.5
 Potable water supply603.0
 Trap seal1002.1, 1005.0, 1007.0
 Water heaters502.1
 Public, or public use, definition218.0
 Public sewer, definition218.0
 Public shower floors411.9

Quality and weight of materials,
 general regulationsChapter 3
 Quality of fixtures401.1
 Quick-disconnect device1211.6

- R -

Rain and surface water drains305.2, 714.2
 Rainwater systemsChapter 11, Appendix C
 Rate of flow, fixture unit610.0, 702.0, Tables 6-7, 7-2
 Reaming pipes309.3, 701.2.1, 1208.5.5
 Receiving tank or sump710.2-3, 710.7-10, 710.13.1
 Receptors:
 Accessible804.1, 811.4
 Approval required802.0, 804.1
 Connected indirectly to sewer801.1-2
 Definition220.0
 Indirect waste804.0
 Maximum distance from fixture804.1
 Required801.1-2, 804.0, 811.1
 Shower, shower stalls411.0
 Size of trap, vent, waste803.0
 Type and size804.1
 Recessed or Durham fittings206.0, 701.2.1
 Reclaimed waterChapter 16
 Recommended loadings,
 sewage disposalTable 7-4, Appendix G
 Reducer, where required317.0
 Refrigerants510.0
 Refrigerators801.2, Table 7-3
 Regulators, gas supply1208.7
 Regulators, relief valves on water supply608.0
