

## PREAMBLE

This document was developed keeping in mind the older version of the specifications that was used by all stakeholders.

To facilitate the transition from the old version to the new version of the specifications the sections numbers of within each division kept the same for ease of reference.

A comparison between the old numbering system and the new one is given below to explain to the users how to search and navigate through the specification document.

### ***Old Numbering system***

In the old numbering the document sequence was based on the Section Number and subsequent Part Numbers, Part-1 General, Part-2 Products and Part-3 Execution as shown below

#### SECTION 01019 CONTRACT CONSIDERATIONS

##### Part 1 General

##### 1.1 Related Sections

- A. Section 01025 - Measurement and Payment.
- B. Section 01027 - Applications for Payment.
- C. Section 01028 - Modification Requirements.
- D. Section 01700 - Contract Closeout.

### ***New Numbering System***

In the new system an Additional Level has been added to allow for a continuous numbering throughout each division. Section numbers however; were kept between parenthesis for users' ease of reference and ease of relating to old numbering.

#### 1 CONTRACT CONSIDERATIONS (SECTION 01019)

##### 1.1 Part 1 General

##### 1.1.1 Related Sections

Section 01025 - Measurement and Payment.

Section 01027 - Applications for Payment.

Section 01028 - Modification Requirements.

Section 01700 - Contract Closeout.
