

3.4	Lighting Recommendations for Areas adjacent to the Carriageway	238
3.5	Lighting Recommendations for Conflict Areas	238
3.5.1	Average Road Surface Illuminance	238
3.5.2	Overall Illuminance Uniformity	239
3.6	Samples of typical Conflict Area Lighting Calculations	240
3.6.1	Sample of a Street Lighting Calculation for a typical Two Lane Roundabout Layout	240
3.6.2	Sample of a Street Lighting Calculation for a typical One Lane Roundabout Layout	241
3.6.3	Sample of a Street Lighting Calculation for a typical Street (mini) Roundabout Layout	243
3.6.4	Sample of a Street Lighting Calculation for a typical Junction of Boulevard / Boulevard Layout	245
3.6.5	Sample of a Street Lighting Calculation for a typical Junction of Street / Street Layout	247
3.7	Coordination	249
3.8	Traffic Route Lighting Design Fundamentals	249
3.8.1	Selection of the Lighting Class and Definition of relevant Area	249
3.8.2	Collection of Preliminary Data	249
3.8.3	Calculation of Design Spacing	253
3.8.4	Plotting of Luminaire Positions	258
4.0	Lighting for Subsidiary Roads	259
4.1	Lighting Recommendations for Subsidiary Roads	259
4.2	Lighting Design for Subsidiary Roads	261
4.2.1	Selection of the Lighting Class and Definition of relevant Area	261
4.2.2	Collection of Preliminary Data	262
4.2.3	Calculation of Design Spacing	262
4.2.4	Plotting of Luminaire Positions	262
5.0	Lighting for Urban Centres and Public Amenity Areas	263
6.0	Pedestrian Underpasses in Public Realm Areas	265
7.0	Tunnel Lighting	269
8.0	Entrances or Underpasses, Underground Car Park Facilities	278
9.0	Car Parks (above Ground)	279
9.1	Sample of a Lighting Calculation for a typical Low-Risk Car Park next to Streets	280
9.2	Sample of a Lighting Calculation for a typical Medium-Risk Car Park next to Streets	281
9.3	Sample of a Lighting Calculation for a typical Medium-Risk Car Park	283
9.4	Sample of a Lighting Calculation for a typical High-Risk Car Park	286
10.0	Service Stations and Mini-marts	290
