

Sub-Contractor	- Name of the firm preparing original documents.
Drawing	- Number of the drawing. Title of the submission (where possible) Date of the preparation and date of the submission. Where a group of related drawings is submitted as one unit, only one transmittal form is required with a general description of what is included. Drawings should then be numbered consecutively and have the same date.
Submission No.	- A, B, C etc. depending on previous submission for same items (see resubmitted procedure).
Specification	- The Specification Section number where item is specified (do not submit items from more than one Specification Section on the same form).
Specification	- Specific paragraph under which item is specified
Copies & Type	- Number of copies submitted and type of material submitted (sepia, print, brochure or sample, etc.)
Contractor's	- Clearly note any exceptions or deviations from the Contract Documents and state reasons for them.

### **11.1.10 Working Drawings**

- A. Prior to the execution of any Works the Contractor shall prepare detailed working drawings, as per Section 17200, required for the proper execution of the Works and submit these with full explanatory notes for the Engineer's approval.
- B. The Contractor shall base the working drawing on the Contract Drawings and include all necessary additional information and details to enable proper execution of Works.
- C. Working drawings shall also apply to all temporary works which shall include where required such aspects as:
1. Traffic diversions
  2. Dewatering systems and discharge routes
  3. Dealing with existing services
  4. Concreting sequence
  5. Pipeline test sections and methods
  6. Formwork
  7. Arrangements for Non-Disruptive Method of Pipeline Construction
  8. Phasing of works
