

ISO 527-2	Plastics - Determination of tensile properties – Part 2: Test conditions for moulding and extrusion plastics
ISO 527-5	Plastics - Determination of tensile properties – Part 5: Test conditions for unidirectional fibre-reinforced plastic composites
ISO 9000	Quality management systems.

10.1.4 Submittals

10.1.4.1 Products and Materials Approval

A. In order to verify compliance with the specification the Contractor shall submit information for all products and materials used in the Works to the Engineer for approval sufficiently in advance of their use in accordance with the Contract programme allowing for ordering and approval times. Reference shall also be made to Section 01600 of the specification on products and materials approval. Information to be submitted shall comprise but not necessarily be limited to:

- a. For each proposed product.
- b. Manufacturers name.
- c. Suppliers name.
- d. Product name (if applicable).
- e. Product description.
- f. Manufacturer's technical data.
- g. Test results or certificates.
- h. Storage instructions.
- i. Application instructions.

10.1.4.2 Method Statement

A. The Contractor shall submit method statements to the Engineer for approval 4 weeks in advance of commencing the site activity in accordance with Section 01300 of the specification. These shall comprise but not necessarily be limited to:

- a. Procedures for surface preparation, application and testing of coatings.
- b. Procedures for surface preparation, application and testing of membranes.
