

- E. All regulations of the ADWEA/Works Department shall be strictly observed in the distribution and use of the supply. Under no circumstances shall any installation be connected to such supply until authorized by the Engineer.
- F. Reflective materials on signs, drums, barricades, and other devices shall be kept clean, free from dirt, mud and road grime. Scratches, rips, and tears in the sheeting shall be promptly repaired to the Engineer's satisfaction.
- G. Sign panels, barricades, cones, vertical panels and drums shall be installed as shown in the Contract Documents, on proposals and approved by the Engineer or as directed by the Engineer.
- H. Traffic control devices shall not be removed from the Contract without the Engineer's written agreement.
- I. Lights shall be securely fixed to barricades or drums used singly or installed as shown in the Contract Documents, on proposals submitted by the Contractor and approved by the Engineer or as directed by the Engineer.
- J. At existing signal-controlled junctions, the Contractor shall utilize the existing equipment and supply and install such additional equipment required for any modified road layout or traffic management system at the junction.
- K. The contractor shall maintain and replace promptly any broken lamps and replace and repair any damaged or malfunctioning equipment.
- L. Unless otherwise agreed with the Engineer, new permanent traffic signal equipment shall not be installed at a junction until the permanent carriageway works are complete at the particular junction.

22.3.8 Removal

- A. The Contractor shall remove equipment and devices when no longer required.
- B. The Contractor shall repair any damage caused by installation.
- C. The Contractor shall remove post settings.
