

During this stage, it is also necessary to:

- obtain all the relevant data, standards and design guidelines that are adopted by the SAUP,
- in case of certain SAUP, it has to be renewed every 2 months or as per SAUP policy since there are daily modifications of records in GIS.

Documentation Requirements

The requirements related to documentation are as follows:

- The NOI applications should be completed both in Arabic and English languages using the standard forms if available.
- The supporting documents to be submitted in the form of printed drawings (hard copies) and soft copies (CD) as part of the NOI application are listed in Table 2.
- Although these documents would typically provide sufficient information to support the application, certain SAUP might request additional information.
- The average processing time to review the required documents and issue the NOC is expected to be 2 to 4 weeks.

Table 2: List of Documents (No. of Copies) Required for Informational NOC

SAUP	NOI	LOA	Key Plan	General Layout Plan
ADM	1	1	1	1
DoT	1	1	1	1
