

## Introduction

Obtaining the relevant local authorities approvals on certain aspects of the master plan is required as part of the master plan submission to DDA. This entails liaising with all authorities to ensure compliance with their relevant standards and guidelines as pertaining to their regulatory jurisdictions.

Authority approvals are required to be provided at the SOS and FMP stages of the master plan. However, it is expected that coordination is initiated at the PMP stages.

At the SOS stage, official approvals must be obtained from the authorities in the form of stamped SOS.

At the FMP stage, relevant approved drawings and reports accompanied by the official approval letters from each authority must be submitted as part of the master plan submission to DDA as further detailed in this chapter.
