## Abu Dhabi Utility Corridors Design Manual

---

### Chapter 1 - Introduction

Figure 1.1:	Utility corridors considered in the UCDM. ....	2
Figure 1.2:	2030 Plans for Abu Dhabi Emirate. ....	4
Figure 1.3:	The UCDM and other manuals. ....	7
Figure 1.4:	Integration of UCDM, USDM and PRDM for a Complete Street. ....	8

### Chapter 2 - Goals and Benefits

Figure 2.1:	Example of a Complete Street in a residential development in Abu Dhabi .....	3
-------------	--	---

### Chapter 3 - Utility Corridors Selection and Approval Routes

Figure 3.1:	Typical Access Lane cross sections for different Land Use Contexts. ....	2
Figure 3.2:	Step-by-step guide for utility corridors arrangements for new streets. ....	3
Figure 3.3:	Step-by-step guide for the development of infrastructure retrofitting of utility corridors arrangements in existing streets. ....	5
Figure 3.4:	Approval routes for utility corridors planning. ....	6
Figure 3.5:	Utility corridors allocation arrangement cross section. ....	7

### Chapter 4 - Utility Corridors Requirements

Figure 4.1:	Schematic representation of a service and a chamber corridor. ....	3
Figure 4.2:	Indicative comparison between applying and not applying UCDM standards. ....	3
Figure 4.3:	Chapter 4 user guide. ....	6
Figure 4.4:	Potable Water corridors locations. ....	8
Figure 4.5:	Combined vs. individual valve chambers. ....	9
Figure 4.6:	Potable Water service and chamber corridor offsets. ....	9
Figure 4.7:	Fire hydrant locations. ....	10
Figure 4.8:	Example of poor placement of fire hydrant and signage causing obstructed pedestrian movement. ....	10
Figure 4.9:	Wastewater collection corridors locations. ....	12
Figure 4.10:	Wastewater service and chamber corridor offsets. .	13
Figure 4.11:	Irrigation water supply corridors locations. ....	14
Figure 4.12:	Example of an Irrigation chamber overlapping a Tree/Street Lighting corridor. ....	15
Figure 4.13:	Irrigation water service and chamber corridor offsets. ....	15
Figure 4.14:	Stormwater collection corridors locations. ....	16
Figure 4.15:	Desired stormwater flow directions. ....	17
