

where $S_{DS} < 0.33$, compliance with the seismic requirements of this standard is not required.

2. Specific seismic detailing requirements of this standard for a new structure need not be met where it can be shown that the level of

performance and seismic safety is equivalent to that of a new structure. Such analysis shall consider the regularity, overstrength, redundancy, and ductility of the structure within the context of the existing and retrofit (if any) detailing provided.
