

28.1.4.2 Method Statements

The Contractor shall submit method statements to the Engineer for approval 4 weeks in advance of commencing the site activity in accordance with Section 01300 of the specification. These shall comprise but not necessarily be limited to:

- i. Equipment set-up and locations of proposed access points.
- ii. Anticipated cut off periods for services.
- iii. Procedures for verification of active service connections.
- iv. Procedures for notifying affected residences and businesses.
- v. Procedures for complying with traffic control.
- vi. Procedures to be adopted to obtain permits to work from ADM Operation and Maintenance Section
- vii. Safety procedures in particular working with scaffolding and entering confined spaces.

28.1.5 Quality Control

- A. Prior to dispatch of any product and/or material from source the Contractor shall notify the Engineer in writing in sufficient time to allow the Engineer the opportunity to inspect and test the product and/or material prior to delivery in accordance with Section 01400 of the specification.

Products and materials shall be from a manufacturer/supplier who operates a quality system which is registered to ISO 9000 series or approved equal.

The Contractor shall operate a quality control system, to be approved by the Engineer, which will effectively gauge the accuracy and consistency of the survey report produced by the operator from the monitor picture.

The system shall be such that the accuracy of reporting should be a function particularly of:

- i. The number of faults not recorded (omissions).
- ii. The correctness of the coding and classification of each fault recorded.

- B. The minimum levels of accuracy to be attained shall be as follows:

- i. Header accuracy 95%
- ii. Detail accuracy 85%
- iii. Lowest acceptable tolerance 75%
