

Figure 50
Long life (double arc) metal halide lamp E27 details.

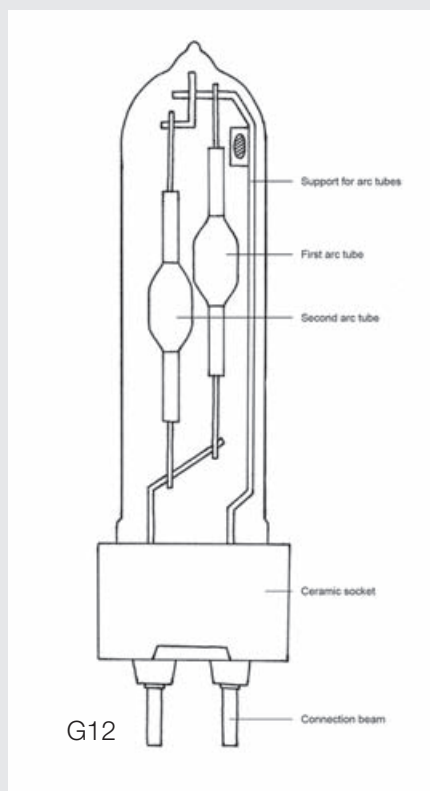

Figure 51
Typical long life MH G12 system.

NOTE1 Some manufacturers provide additional metal halide lamps with light colours:

- Orange
- Red
- Magenta
- Green
- Blue

NOTE 2 Depending on manufacturers and colours, power; 70W(RX7s, G12), 150W(G12, E26, RX7s-24; E40), 175W(E26), 250W(E39, E40), 400W(E39, E40), 1000W(E39) and socket may vary.

NOTE 3 All high pressure mercury vapour and metal halide lamps are to be used ONLY inside enclosed luminaires! All these lamps are emitting high levels of UV-radiation!
