

### **21.1.6 Interior Enclosures**

- A. The Contractor shall provide temporary partitions as indicated to separate work areas from DMAT's occupied areas, to prevent penetration of dust and moisture into such areas, and to prevent damage to existing materials and equipment.
- B. The Contractor shall paint surfaces exposed to view from DMAT's occupied areas.

### **21.1.7 Protection of Installed Work**

- A. The Contractor shall protect installed Work and provide special protection where specified in individual specification sections.
- B. The Contractor shall provide temporary and removable protection for installed Products. Control activity in immediate work area to prevent damage.
- C. The Contractor shall provide protective coverings at walls, projections, jambs, sills, and soffits of openings.
- D. The Contractor shall protect finished floors, stairs, and other surfaces from traffic, dirt, wear, damage, or movement of heavy objects, by protecting with durable sheet materials.
- E. The Contractor shall prohibit traffic or storage upon waterproofed or roofed surfaces. If traffic or activity is necessary, obtain recommendations for protection from waterproofing or roofing material manufacturer.
- F. The Contractor shall prohibit general traffic from landscaped areas.

### **21.1.8 Dust Control**

- A. The Contractor shall execute the Work by methods to minimise raising dust from maintenance operations.
- B. The Contractor shall provide positive means to prevent air-borne dust from dispersing into atmosphere.

### **21.1.9 Noise Control**

- A. The Contractor shall provide methods, means, and facilities to minimise noise produced by maintenance operations.

### **21.1.10 Pest Control**

- A. The Contractor shall provide methods, means, and facilities to prevent damaging of landscape by pests and insects
