

## **19 ACCESS ROADS AND PARKING AREAS (SECTION 01550)**

### **19.1 Part 1 General**

#### **19.1.1 Related Sections**

Section 01039 - Coordination and Meetings.

#### **19.1.2 General**

- A. The Contractor shall make his own arrangements for access to the various parts of the site where works are to be performed.
- B. All such access shall be subject to the approval of the Engineer.
- C. Where the proposed access to the site lies across the land of any third party, the Contractor shall produce to the Engineer the written consent of the owner and occupier of the land over which the access lies before making use of the same.
- D. The Contractor shall record before use and to the approval of the Engineer, conditions of the surfaces of any land (and of any crops on such land) over which access lies.
- E. The Engineer will arrange for the necessary notices to permit work in private lands to be served in accordance with the agreed programme of work. Entry onto those lands is not permitted until the Contractor is given permission by the Engineer.
- F. The Contractor shall carry out all operations necessary for the execution of the Works and the construction of any Temporary Works so as not to interfere unnecessarily or improperly with the public convenience or the access to use and occupation of public or private roads and footpaths or to or of properties whether in the possession of DMAT or of any other person.
- G. The Contractor shall save harmless and indemnify DMAT in respect of all claims, demands, proceedings, damages, costs, charges and expenses whatsoever arising out of or in relation to any such matters in so far, as he is responsible for.
- H. The Contractor shall provide and maintain at all times pedestrian access along all public highways and to all houses and other public or private properties fronting onto highways where works are being performed and where such properties normally have vehicular access.
