Foreword.....	4
Introduction .....	5
1 Scope .....	6
2 Normative references .....	6
3 Terms and definitions .....	7
4 Lighting design criteria .....	8
4.1 Luminous environment .....	8
4.2 Luminance distribution .....	9
4.2.1 General.....	9
4.2.2 Reflectance of surfaces .....	9
4.2.3 Illuminance on surfaces .....	9
4.3 Illuminance .....	10
4.3.1 General.....	10
4.3.2 Scale of illuminance .....	10
4.3.3 Illuminances on the task area.....	10
4.3.4 Illuminance on the immediate surrounding area.....	11
4.3.5 Illuminance on the background area .....	12
4.3.6 Illuminance uniformity .....	12
4.4 Illuminance grid .....	12
4.5 Glare.....	13
4.5.1 General.....	13
4.5.2 Discomfort glare .....	13
4.5.3 Shielding against glare .....	14
4.5.4 Veiling reflections and reflected glare.....	15
4.6 Lighting in the interior space .....	15
4.6.1 General.....	15
4.6.2 Mean cylindrical illuminance requirement in the activity space.....	15
4.6.3 Modelling .....	15
4.6.4 Directional lighting of visual tasks .....	16
4.7 Colour aspects .....	16
4.7.1 General.....	16
4.7.2 Colour appearance .....	16
4.7.3 Colour rendering.....	17
4.8 Flicker and stroboscopic effects.....	17
4.9 Lighting of work stations with Display Screen Equipment (DSE) .....	17
4.9.1 General.....	17
4.9.2 Luminaire luminance limits with downward flux.....	17
4.10 Maintenance factor .....	18
4.11 Energy efficiency requirements .....	19
4.12 Additional benefits of daylight.....	19
4.13 Variability of light.....	19
5 Schedule of lighting requirements.....	20
5.1 Composition of the tables .....	20
5.2 Schedule of interior areas, tasks and activities .....	20
5.3 Lighting requirements for interior areas, tasks and activities .....	22
6 Verification procedures.....	46
