

## Note from the publisher

This book is primarily intended to provide guidance to those responsible for the design, installation, commissioning, operation and maintenance of building services. It is not intended to be exhaustive or definitive, and it will be necessary for users of the guidance given to exercise their own professional judgement when deciding whether to abide by or depart from it. For this reason also, departure from the guidance contained in this publication should not necessarily be regarded as a departure from best practice.

An associated CD is available to purchase from CIBSE, and cross references to this CD are included in the text.
