

13.1.3 References

- A. Product manufacture, testing, and installation shall comply with the following references, unless otherwise stated in the specification:

ACI 506	Guide to Shotcrete.
ACI 506.2	Specification for Shotcrete.
ACI 506.3	Guide to Certification of Shotcrete Nozzlemen.
ACI 506.4	Guide for the Evaluation of Shotcrete.
ACI 548.1	Guide for the use of Polymers in Concrete.
ASTM C150	Standard Specification for Portland Cement.
ASTM C94	Ready-Mixed Concrete.
ASTM C876	Standard Method for Half-Cell Potentials of Uncoated Reinforcing Steel in Concrete.
ASTM C881	Specifications for Epoxy-Resin-Base Bonding System for Concrete.
ASTM C882	Testing Method for Bond Strength of Epoxy Resin System used with Concrete by Slant Shear.
BRE IP6: 81	Carbonation of concrete made with dense natural aggregates.
BS 1881	Testing Concrete.
BS 4550	Methods of testing cement.
BS 4652	Zinc-rich priming paint. (organic media)
BS 6319	Testing of resin compositions for use in construction.
DIN 1045	Testing Concrete – Water permeability.
DIN 1048	Water Permeability.
ISO 9000	Quality Management System.

- B. The latest edition or revision of the standards and codes of practices shall be applied. In the event of any conflict or discrepancy arising between the standards and the specifications requirements, the specifications shall overrule.
- C. An Affidavit shall be presented from the manufacturer certifying that the product complies with specified standard. Whenever requested or specified, the contractor shall submit to the Engineer test certificates, furnished by the supplier or manufacturer of the materials, indicating compliance with the specified standards.
