

- B. The Contractor shall submit samples to illustrate functional and aesthetic characteristics of the Product, with integral parts and attachment devices. He shall coordinate sample submittals for interfacing work.
- C. The Contractor shall include identification on each sample, with full Project information.
- D. Samples shall not be used for testing purposes unless specifically stated in the specification section.

#### **11.1.14 Design Data**

- A. Unless otherwise specified the Contractor shall submit 3 copies of Calculations certified by the approved Qualified Designer under all sections for review and approval by the Engineer.

#### **11.1.15 Equipment Data**

- A. The Contractor shall submit six copies, one of which must be an original, of complete technical and catalog data for every item of mechanical and electrical equipment and machinery to be incorporated in the Works, including components as specified under Sections dealing with mechanical and electric equipment.

#### **11.1.16 Test Reports**

- A. Test reports shall be submitted to the Engineer as contract administrator or to the Engineer.
- B. The Contractor shall submit test reports for the purpose of assessing conformance with information given and the design concept expressed in the contract documents.

#### **11.1.17 Certificates**

- A. When specified in individual Specification Sections, the Contractor shall submit six copies of manufacturer's certificate(s) to the Engineer for review. The manufacturer's original certificate(s) should be included with this submittal.
- B. The Contractor shall indicate what materials have been used in the manufacture of a product and ensure that the said materials conform or exceed the requirements of the Contract Documents. He shall submit supporting references, dates, affidavits and certificates as appropriate.
