

## **Type of service connections**

5.26 There are two types of service connections:

- (a) temporary – made to the Premises for a limited period and as approved by the Distribution Company; and
- (b) permanent – made to the Premises for an unlimited period and as approved by the Distribution Company.

5.27 Connections can be divided according to the intended use:

- (a) residential;
- (b) commercial;
- (c) industrial;
- (d) agricultural;
- (e) institutional;
- (f) recreational; and
- (g) others.
