

- Healthcare buildings (*continued*)
 scanner rooms, 52
 staff office, 53
 staff rooms, 53
 sterilisation rooms, 49
 television systems, scanners with, 52
 toilets, ward, for patients, 53
 treatment rooms, 53
 waiting rooms, 53
 wards, 53
 white teeth matching, 50
- Hemispherical illuminance, 110
- Hemp spinning, 61
- HID lamp, *see* Light source
- High-bay, *see* Luminaire
- High frequency circuit, *see* Ballast
- Highlight, 11, 16
- High pressure discharge, *see* Light source
- High-rack stores, 61
- High-risk task area lighting, 101
- Horizontal plane illuminance, 5
- Hosiery, 61
- Hosing down, luminaires, 43
- Hospitals, 49-53, 55
- Hostile area, 43, 45, 48, 49, 54, 58, 59, 63
- Hotels, 54
- Hot restrike, *see* Light source-restarting
- Hue, 22
- Hue circle, 24
- Illuminance, 9, 110
 age effects, 31
 at a point, 9
 average, 11, 89
 CIE scale, 31
 constant, 85
 core area, 96
 cylindrical, 5
 diffuse, 69
 direct, 94, 97
 diversity, 8, 32, 96, 97
 general surround, 92
 gradation, 8
 grid, 95
 horizontal, 5
 immediate surround areas, 32
 inclined plane, 5
 initial, 79
 maintained, 30, 31, 72, 79, 86, 89
 minimum/maximum, 97
 perimeter, 32, 33
 planar, 5, 96
 rate of change, 9
 ratio, 9, 11, 33, 72, 75
 reference plane, 5
 room perimeter, 95
 scalar, 5
 schedule, 30, 31, 42, 89
 steps, 31
 trigger, 84, 86
 uniformity, 9, 93, 95, 110
 variation, 4, 8, 31, 95, 97
 light loss, 8
 long term, 8
 non-task, 8
 short term, 8
 spatial, 9, 95
 vector, 5
 vertical, 5, 35, 44, 55, 57, 59
- Image enhancers, scanners with, 52
- Immediate surround, 9, 10, 36
- Immigration halls, 44
- Incandescent lamp, *see* Light source
- Inclined plane illuminance, 5
- Indirect lighting, 14, 34, 89, 111
- Indoor public car parks, 59
- Information desks, 44, 55
- Initial illuminance, *see also* Illuminance, 111
- Initial luminance, 111
- Inlay work, woodwork, 63
- Inspection, 45, 47, 48, 54, 55, 56, 58, 60, 61, 62, 63
 chemical, plastics and rubber industry, 45
 glasses and bottles, 48
 laundry/dry cleaning, 54
 metal work and processing, 56
 printed circuit board, 47
 rolling mills, iron and steel works, 60
 vehicle, 62
 wood processing, 63
- Intensive care areas, 51
- Inter-reflection, 11, 88
- Inspection lighting, 15
- Installed:
 load, 22, 42
 loading, 111
 power density, *see* Power density
- Institutional accommodation, 53, 55
- Intensity distribution, 16
- Inverter, *see* Emergency lighting
- IR chart, *see* Illuminance ratio
- Ironing, 54, 61
- Ironmaking, 60
- ISO 3864, safety colours, 36
- Jewellery manufacture, 54
- Jig making, 56
- Joinery, 63
- Jute spinning, 61
- Key light, 16
- Kilns, brick, preparation work on, 44
- Kitchens, 46, 48, 53
 educational buildings, 46
 hotel and restaurant, 54
- Kitchen work, delicatessen, 48
- Knitting:
 textile processing, 61
 machines, 61
- Knitwear, 61
- Laboratories, 45, 46, 48, 52
 chemical, plastics and rubber industry, 45
 educational buildings, 46
 food industry, 48
- Labour costs, 39
- Lamp, *see also* Light source, 111
