

### 4.3.9 Fibre Optic Corridors

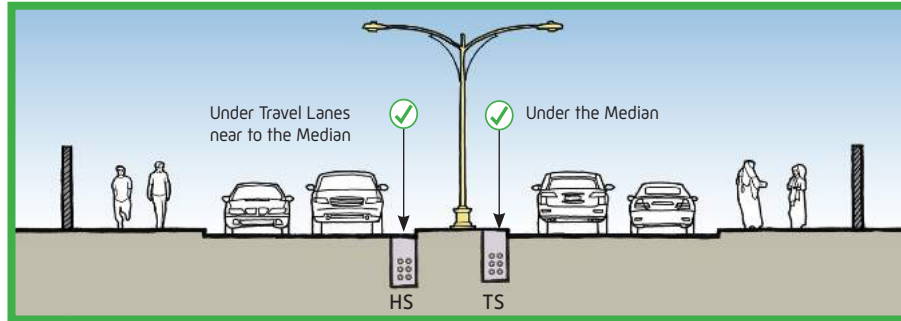

Figure 4.35: Fibre Optic corridors locations

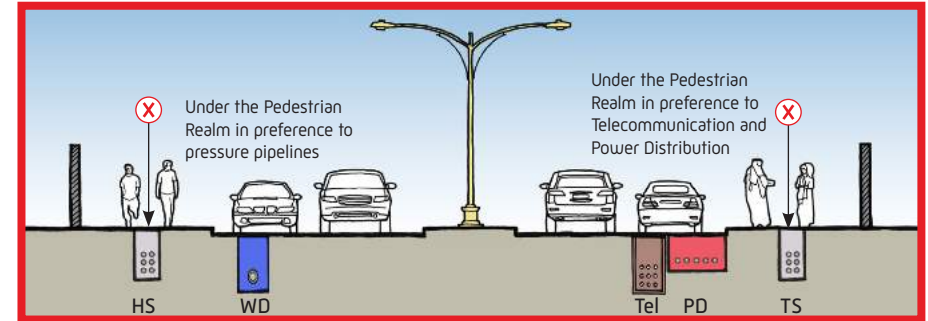

Table 4.16: Fibre Optic Corridors Allocation

| Corridor Type          | Street Families |        |        |        |        |        |        |        |             |        |
|------------------------|-----------------|--------|--------|--------|--------|--------|--------|--------|-------------|--------|
|                        | Boulevard       |        |        | Avenue |        |        | Street |        | Access Lane |        |
|                        | Side 1          | Middle | Side 2 | Side 1 | Middle | Side 2 | Side 1 | Side 2 | Side 1      | Side 2 |
| HS Service Corridor    | -               | 500    | -      | -      | 500    | -      | -      | -      | -           | -      |
| HS Chamber Corridor    | -               | 1000   | -      | -      | 1000   | -      | -      | -      | -           | -      |
| TS Service Corridor    | -               | 700    | -      | -      | 700    | -      | -      | -      | -           | -      |
| TS Chamber Corridor    | -               | 1200   | -      | -      | 1200   | -      | -      | -      | -           | -      |
| HS/TS Service Corridor | -               | 700    | -      | -      | 700    | -      | -      | -      | -           | -      |
| HS/TS Chamber Corridor | -               | 1200   | -      | -      | 1200   | -      | -      | -      | -           | -      |

A summary of utility corridor widths for each utility is provided in Table 4.2.
