

EN 12061	Plastics piping systems – Thermoplastic fittings – Test method for impact resistance
EN 12256	Plastics piping systems – Thermoplastic fittings – Test method for mechanical strength or flexibility of fabricated fittings
EN13508	Investigation and assessment of drain and sewer systems outside buildings
EN ISO 13967	Thermoplastic fittings – Determination of ring stiffness
EN ISO 13968	Plastics piping and ducting systems – Thermoplastics pipes – Determination of ring flexibility
EN 14741	Thermoplastics piping and ducting systems – Joints for buried non-pressure applications – Test method for the long term sealing performance of joints with elastomeric seals by estimating the sealing pressure
EN ISO 16871	Plastics piping and ducting systems - Plastics pipes and fittings - Method for exposure to direct weathering
ISO/TR 10358	Plastics pipes and fittings – Combined chemical-resistance classification table
ISO 4427	Plastics piping systems - Polyethylene (PE) pipes and fittings for water supply
ISO 11922-1	Thermoplastics pipes for the conveyance of fluids. Dimensions and tolerances.
WIS 4-35-01	UK water industry specification for thermoplastics structured wall pipes, joints and couplers with a smooth bore for gravity sewers for the size range 150–900 mm

21.1.4 Submittals

21.1.4.1 Products and Materials Approval.

- A. In order to verify compliance with the specification the Contractor shall submit information for all products and materials used in the Works to the Engineer for approval sufficiently in advance of their use in accordance with the Contract
