

manholes shall be raised by adding a sufficient number of courses of concrete blocks to obtain the desired elevation. It shall be the responsibility of the Contractor, at no additional cost to DMAT, to repair any portion of the manhole which is damaged when the existing frame and cover are removed. The Contractor shall then re-install or replace the manhole frame and cover. Replacement frames and covers shall be as specified.

- M. Manhole rehabilitation acceptance. After the manhole rehabilitation work has been completed, the manhole shall be visually inspected by the Contractor in the presence of the Engineer. Any defects which will or could affect the integrity of the manhole shall be repaired at the Contractor's expense in a manner approved by the Engineer. In addition the Contractor will be required within one year to visually inspect the manholes which were rehabilitated. Any work that has become defective shall be redone by the Contractor at no additional expense to DMAT.
