

7.5.2.1 Scope

The regulation covers non-directional lamps, luminaires and control gears traded and use in UAE that include the following:

- Incandescent lamps $\geq 16\text{W}$ (watts)
- Linear fluorescent lamps (excluding energy efficiency and functionality requirements); i.e. just safety is covered
- Compact fluorescent lamps (CFLs)
- Halogen lamps
- Light emitting diode (LED) lamps
- Control gears for general lighting purposes
- Luminaires for general lighting purposes. (only Electrical Safety Requirements apply)

General exemptions for lamps, luminaires and control gears are listed in Annex 1 of the ESMA Standard.

7.5.2.2 Emirates Quality Mark

A quality mark granted by ESMA indicating that the given product complies with the requirements stated in the accredited standard.
