

16.3 Lighting for subsidiary roads	230
16.3.1 Lighting recommendations for subsidiary roads	230
16.3.2 Lighting design for subsidiary roads	232
16.4 Lighting for urban centres and public amenity areas	232
16.5 Tunnel lighting	233

Chapter 17: Exterior workplace lighting

17.1 Functions of lighting in exterior workplaces	236
17.2 Factors to be considered	236
17.2.1 Scale	236
17.2.2 Nature of work	236
17.2.3 Need for good colour vision	237
17.2.4 Obstruction	237
17.2.5 Interference with complementary activities	237
17.2.6 Hours of operation	237
17.2.7 Impact on the surrounding area	238
17.2.8 Atmospheric conditions	238
17.3 Lighting recommendations	238
17.3.1 Illuminance and illuminance uniformity	238
17.3.2 Glare control	239
17.3.3 Light source colour properties	239
17.3.4 Loading areas	239
17.3.5 Chemical and fuel industries	240
17.3.6 Sidings, marshalling yards and goods yards	241
17.4 Approaches to exterior workplace lighting	243
17.4.1 High mast floodlighting	243
17.4.2 Integrated lighting	243
17.4.3 Localised lighting	244

Chapter 18: Security lighting

18.1 Functions of security lighting	245
18.2 Factors to be considered	245
18.2.1 Type of site	245
18.2.2 Site features	246
18.2.3 Ambient light levels	247
18.2.4 Crime risk	247
18.2.5 CCTV surveillance	247
18.2.6 Impact on the surrounding area	247
18.3 Lighting recommendations	247
18.3.1 Illuminance and illuminance uniformity	247
18.3.2 Glare control	249
18.3.3 Light source colour properties	249
18.4 Approaches to security lighting	249
18.4.1 Secure areas	249
18.4.2 Public spaces	252
18.4.3 Private areas	253
18.4.4 Multi-occupancy dwellings	254
18.5 Lighting Equipment	254
18.5.1 Light sources	254
18.5.2 Luminaires	255
18.5.3 Lighting columns	255
18.5.4 Lighting controls	256
18.5.5 Maintenance	256
