

FOREWORD

The Stormwater and Subsoil Drainage O&M Manual is an independent document intended to compliment the Stormwater and Subsoil Drainage Design Manual and its associated Standard Specifications and Drawings.

This manual was developed by the Internal Roads and Infrastructure Division of the Municipality of Abu Dhabi City as part of the Stormwater and Subsoil Drainage Master Plan.

The material presented in this document has been prepared in accordance with recognized engineering principles. The standards and guidelines mentioned should be used only under the direction of an engineer who is competent in the field of urban surface and subsurface drainage in Abu Dhabi and should be read in conjunction with as-built drawings and O&M manuals prepared by contractors, manufacturers, suppliers and the different entities that were responsible for development of the existing stormwater and subsoil drainage systems.
