

2 MEASUREMENT AND PAYMENT (SECTION 01025)

2.1 Part 1 General

2.1.1 Related Sections

Section 01019 - Contract Considerations.

Section 01027 - Applications for Payment.

2.1.2 Authority

- A. Measurement methods delineated in the Schedule of Rates / BOQ complement the criteria of this section. In the event of conflict, the requirements of the Schedule of Rates / BOQ govern.
- B. The Contractor shall take all measurements and compute quantities. The Contractor and Engineer will verify and sign measurements and quantities.

2.1.3 Measurement of Quantities

- A. Measurement: Items shall be measured by weight, volume, area, or linear means or combination, as appropriate, as a completed item or unit of the Work as indicated in the Bill of Quantities.

2.1.4 Payment

- A. Payment Includes: Full compensation for all required labour, products, tools, equipment, transportation, services and incidentals; erection, application or installation of an item of work; overhead and profit.
- B. Final payment for Work will be made on the basis of the actual measurements and quantities accepted by the Engineer multiplied by the unit sum/price for work which is incorporated in or made necessary by the Works.

2.1.5 Defect Assessment

- A. The Contractor shall replace the Work, or portions of the Work, not conforming to specified requirements and that shall be at no cost to DMAT.
- B. If, in the opinion of the Engineer, it is not practical to remove and replace the Work, the Engineer will direct one of the following remedies:
 - 1. The defective Work may remain, but the unit sum/price will be adjusted to a new sum/price at the discretion of the Division
