

1.4.2 METHOD STATEMENTS

- a) The Contractor shall submit method statements to the Engineer for approval 4 weeks in advance of commencing the site activity in accordance with Section 01000-07 of the specification. These shall comprise but not necessarily be limited to:
 - i. Method of mixing and laying of sub base and road base.
 - ii. Method of surface preparations and application of prime and tack coat.
 - iii. Method of mixing, laying and compaction of bitumen mixes.
 - iv. Method of laying kerbstones and block paving.

1.4.3 DRAWINGS

- a) The Contractor shall submit drawings to the Engineer for approval in advance of commencing the site activity in accordance with Section 01000-07 of the specification. These shall comprise but not necessarily be limited to:
 - i. Location and construction of any temporary barricades and fences.

1.4.4 SAMPLES

- a) Representative samples, as agreed with the Engineer, must be submitted for at least the following items at the same time as the particulars are submitted.
 - i. Precast concrete kerbs.
 - ii. Concrete paving blocks.
 - iii. Road marking materials.
 - iv. Traffic signs.

1.4.5 MOCK UP

- a) The Contractor shall prepare a mock up as requested by the Engineer for at least the following installations.
 - i. 1m² mock up of block paving layout.

1.5 QUALITY CONTROL

- a) Prior to dispatch of any product and/or material from source the Contractor shall notify the Engineer in writing in sufficient time to allow the Engineer the opportunity to inspect and test the product and/or material prior to delivery in accordance with Section 01000-08 of the specification.
- b) Products and materials shall be from a manufacturer/supplier who operates a quality system which is registered to ISO 9000 series or approved equal.
