

Summary of construction and demolition as well as operational waste estimates and diversion from landfill and incineration rates

Summary 1 - Credit Point Summary

Home Step 1 Step 2 Step 3 Step 4 Summary 1 Summary 2 Summary 3

Building Construction and Demolition Waste

Estimated demolition waste generated in tonnes	0
Estimated construction waste generated in tonnes	750
Estimated total CBD waste generated in tonnes	750
Quantity landfilled in tonnes	446
Estimated construction and demolition waste salvaged/recycled in %	40.5%

Building Operational Waste

Estimated operational waste generated in tonnes per annum	135
Estimated operational waste landfilled in tonnes per annum	79
Estimated operational waste diverted in tonnes per annum	56
Estimated operational waste diverted in %	41.8%

SM-R2: Basic construction waste management

Pre-requisite Achieved? **Yes**

SM-R3: Basic operational waste management strategy

Pre-requisite Achieved? **Yes**

SM-13: Improved construction waste management

Credit Points Awarded **0**

SM-14: Improved operational waste management

Credit Points Awarded **0**

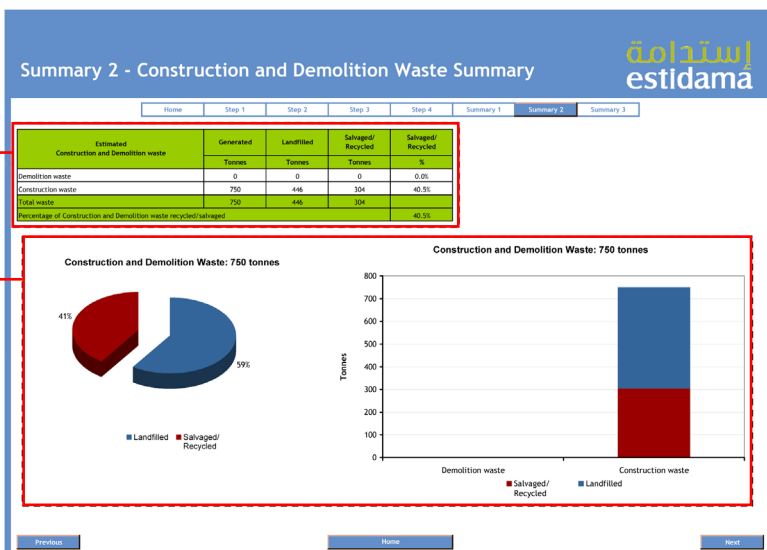

SM-15: Organic waste management

Credit Points Awarded **0**
