

- C. The contractor shall prevent parking on or adjacent to access roads or in non-designated areas.

22.3.3 Flag Persons

- A. The contractor shall provide trained and equipped flag persons to regulate traffic when construction operations or traffic encroach on public traffic lanes.
- B. Each flagman on duty shall be identified with appropriate and distinctive apparel approved by the Engineer. Reflective apparel is required for flagging during darkness.
- C. The contractor shall employ flagmen only where approved by the Engineer and relevant Authorities.

22.3.4 Flares and Lights

- A. The contractor shall use flares and lights during hours of low visibility to delineate traffic lanes and to guide traffic.
- B. Temporary lighting shall be installed, on proposals submitted and approved by the Engineer or as directed by the Engineer. The location and spacing of light standards shall be approved by the Engineer unless the required spacing is indicated on the Contract Drawings.
- C. The Contractor shall maintain the temporary lighting installations and carry out routine inspections to ensure all installations are functioning satisfactorily.
- D. The Contractor shall replace or repair any faulty or malfunctioning lamps or installations. The Engineer shall be informed promptly of any traffic-damaged installation and such installation shall be replaced or repaired as directed by the Engineer.
- E. During the Construction of the Works, temporary lighting may be required to be removed and reinstalled in other locations as directed or approved by the Engineer.

22.3.5 Haul Routes

- A. The Contractor shall establish public thoroughfares to be used for haul routes and site access.
- B. The Contractor shall confine construction traffic to designated haul routes.
