

How to use this guide

This 1 Pearl Building Guide is intended to complement the Pearl Building Rating System, which is the primary reference document for Estidāma compliance. This document provides guidance to a project team for achieving the required credits. Key features of the document organization are highlighted below.

The members of the project team responsible for requirements discussed on the page are highlighted on the right.

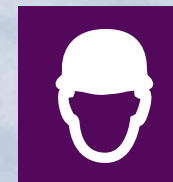

P - Pearl Qualified Professional
 E - Engineer
 C - Contractor
 A - Architect
 O - Owner
 X - Commissioning Agent
 S - Other Specialist
