

- The supporting documents to be submitted in the form of paper drawings (hard copies) and soft copies as part of the construction NOC application are listed in Table 4.
- All the drawings are to be submitted in size A1; such that the key plans are to be submitted on a scale of 1x20000 and the approved detailed plans, approved ROW cross sections and standard drawings are to be submitted on a scale of 1x1000.
- The soft copies of all drawings are to be provided in AutoCAD format. Although these documents would typically provide sufficient information to support the application, certain SAUP might request for additional information.
- The average processing time to review the required documents and issue the NOC is expected to be 2 to 4 weeks.

Submission Procedure

The construction NOC obtained in the form of construction permit is issued by the ADM Construction Permit Directorate, which has an online public portal to submit the application digitally. The online public portal can be accessed via:

<https://cdp001.dma.ae/CDPAbuDhabi/CDPPublicPortal/Members/Default.aspx>

and the online help detailing the procedures and method of using this public portal are available at:

http://com2.govtsystems.com/HelpFiles/Pub_Portal_1/default.htm.
