

## Chapter A

# Fundamentals

|   | Page |
|---|------|
| 1.0 Light                                   | 28   |
| 1.1 The Nature of Light                     | 28   |
| 1.2 The CIE Standard Observers              | 28   |
| 2.0 The Measurement of Light – Photometry   | 30   |
| 2.1 Luminous Flux                           | 30   |
| 2.2 Luminous Intensity                      | 31   |
| 2.3 Illuminance                             | 31   |
| 2.4 Luminance                               | 31   |
| 2.5 Reflectance                             | 31   |
| 2.6 Typical Values                          | 33   |
| 2.7 The Measurement of Light – Colourimetry | 34   |
| 2.8 The CIE Chromaticity Diagrams           | 34   |
| 2.9 Correlated Colour Temperature           | 37   |
| 2.10 CIE Colour Rendering Index             | 38   |
| 2.11 Colour Gamut                           | 39   |

## Chapter B

# Vision

|  | Page |
|--|------|
| 1.0 The Structure of the Visual System           | 42   |
| 1.1 The Visual Field                             | 42   |
| 1.2 Optics of the Eye                            | 42   |
| 1.3 The Structure of the Retina                  | 43   |
| 1.4 The Central Visual Pathways                  | 45   |
| 1.5 Colour Vision                                | 46   |
| 2.0 Continuous Adjustments of the Visual Systems | 47   |
| 2.1 Adaptation                                   | 47   |
| 2.1.1 Change in Pupil Size                       | 47   |
| 2.1.2 Neutral Adaptation                         | 47   |
| 2.1.3 Photochemical Adaptation                   | 47   |
| 2.2 Photopic, Scotopic and Mesopic Observer      | 48   |
| 2.2.1 Photopic Vision                            | 48   |
| 2.2.2 Scotopic Vision                            | 48   |
| 2.2.3 Mesopic Vision                             | 48   |
| 2.3 Accommodation                                | 49   |
| 2.4 Capabilities of the Visual System            | 49   |
| 2.5 Threshold Measures                           | 49   |
| 2.6 Factors Determining Visual Threshold         | 49   |
| 2.7 Colour Threshold                             | 50   |
| 2.8 Visual Discomfort                            | 51   |
| 2.9 Illuminance Uniformity                       | 53   |
| 2.10 Glare                                       | 54   |
| 2.10.1 Saturation Glare                          | 54   |
| 2.10.2 Adaptation Glare                          | 54   |
| 2.10.3 Disability Glare                          | 54   |
| 2.10.4 Discomfort Glare                          | 56   |
| 2.10.5 Overhead Glare                            | 57   |
| 2.11 Veiling Reflections                         | 57   |
| 2.12 Shadows                                     | 58   |
