

5.9.5 ☒ Include a drawing showing these routes and illustrate how the development and proposed measures support the use of the cycling facilities (i.e. measures such as cycling provisions en-route from the development to other cycling routes, the provision of cycle parking or the provision of a cycling through-route within the development etc.).

5.10 Conclusions and Recommendations

5.10.1 ☒ Summarize trip generation, parking demand/ supply and any important facts about the development.

5.10.2 ☒ Summarize all findings of the report. Draw conclusions and show all measures, policies and strategies proposed to mitigate impacts.
