

8 Executive Summary and Approval Plans

8.1.1 After the approval of the TIS/ TMP the consultant is required to prepare an Executive Summary including Approval Plans. The formal approval of the TIS will only be issued after the Executive Summary and Approval Plan have been submitted and were approved by the Reviewer.

8.1.2 The content required for the Executive Summary is listed below. The Approval Plan follows the same principles as a Circulation Plan for small developments as described in Chapter 3. It should be prepared using the same DoT template as presented in the examples in Appendix B.

8.1.3 All required information, to be included in the Approval Plans for a TIS or a TMP, are listed below. The drawings need to be named in the following fashion: "TIS Tracking Number/ Abu Dhabi Plot Number/ Approval Plan/ Drawing x of y".

Approval Plans

The Approval Plans need to clearly show all agreed measures and impacts as identified by the TIS/ TMP.

If questions arise, these need to be discussed and agreed with the Reviewer.

Formal approval of the TIS/ TMP will only be given once the Approval Plan is agreed and finalized!

Executive Summary

8.1.4 The Executive Summary should be a short and concise document summarizing the TIS/ TMP as follows:

- Overview of the Project:
 - Location and surrounding road network (with a graphical illustration)
 - Nature of land use
 - Number of residential units, floor area of commercial and office spaces, etc.
 - Number of residents
 - Limits of the study area (graphical illustration)
- Background Traffic:
 - Graphical or tabular display of the background traffic at all horizon years including current year
- Development Traffic:
