

- B. Where a change of plane of greater than specified tolerance occurs, the Contractor shall submit recommendation for providing a smooth transition for the Engineer review.
- C. The Contractor shall trim existing doors as necessary to clear new floor finish. Refinish trim as required.
- D. The Contractor shall fit work at penetrations of surfaces as specified.

#### **10.3.6 Repair of Damaged Surfaces**

- A. The Contractor shall patch or replace portions of existing surfaces, which are damaged, lifted, discoloured, or showing other imperfections.
- B. The Contractor shall repair substrate prior to patching finish.

#### **10.3.7 Finishes**

- A. The Contractor shall finish surfaces as specified in individual Product sections.
- B. The Contractor shall finish patches to produce uniform finish and texture over entire area. When finish cannot be matched, he shall refinish entire surface to nearest intersections.

#### **10.3.8 Cleaning**

- A. In addition to cleaning specified in Section 01555, clean adjacent DMAT's occupied areas of work.

**END OF SECTION**
