

4.3.4.	Pipe Materials	31
4.3.5.	Pipe Depth	32
4.4.	Inlet and Catchbasins Structures	32
4.4.1.	Surface Erosion Control.....	33
4.4.2.	Manhole Positioning and Access.....	33
4.5.	Contaminated Surface Run-off	35
4.6.	Hydrodynamic Separators	35
4.7.	Crossing Culverts	36
4.8.	Tidal Discharge.....	36
4.8.1.	Tidal Range.....	36
4.8.2.	Outfall Structures	37
4.9.	Trenchless Technologies.....	37
4.10.	Hazardous Areas	38
4.11.	Concrete Structures.....	39
4.12.	Soakaways.....	39
4.13.	Open Channels & Ditches	39
5.	SUB-SOIL DRAINAGE DESIGN.....	40
5.1.	Introduction	40
5.2.	Context of Subsurface Drainage in Abu Dhabi.....	41
5.3.	Basic Principles of Subsurface Flow and Drainage Design	42
5.3.1.	Subsurface Flow	42
5.3.2.	Groundwater Levels.....	42
5.4.	Subsurface Drainage Planning	43
5.4.1.	Reconnaissance Study	43
5.4.2.	Concept Design	44
5.5.	Hydraulic Design.....	50
5.6.	Drainage Installation	51
5.7.	Construction near Utilities.....	51
5.8.	Maintenance	51
5.9.	Tubewell Drainage Design.....	51
5.9.1.	Patterns of Tubewell Drainage	51
5.9.2.	Well Field in a Triangular Pattern	51
5.9.3.	Well Field in a Rectangular Pattern	53
5.9.4.	Semi-Confined Aquifers.....	54
5.9.5.	Well Design.....	55
5.9.6.	Other Well Design Considerations.....	55
5.9.7.	Environmental Design Considerations	57
5.9.8.	Tubewell and Pump Maintenance	57
6.	STORM WATER PUMPING STATIONS	58
6.1.	General	58
6.2.	Pumping Station Types.....	58
6.2.1.	Pumping Station Components	58
6.2.2.	Pumping Station Types.....	59
6.3.	Mechanical Design	59
6.3.1.	Pumps.....	59
6.3.2.	Pump Performance Curve and Duty Point	60
6.3.3.	Pump Selection.....	60
6.3.4.	Design Capacity and Available Storage	61
6.3.5.	Operating Conditions	61
6.3.6.	Net Positive Suction Head NPSH	62
6.3.7.	Number of Pumps.....	62
6.4.	Pumping Station Arrangement	63
6.4.1.	Suction and Discharge Pipework.....	63
6.4.2.	Intake Design	65
6.4.3.	Pump Protection Screens	66
6.4.4.	Surge Suppression Systems	66
6.5.	Electric Design.....	66
6.5.1.	Electrical Room Air Conditioning	66
6.5.2.	Motors	66
6.5.3.	Starters	67
