The provisions for people of determination must be in compliance with Dubai Universal Design Code.

Building design should comply with UAE Federal Law No. 29, 2006, Article 23 and DM Building Regulations Administrative Resolution No. 125-2001, Article 27 or any updated version of resolution; which details specific requirements for public buildings, commercial buildings and hotels. This regulation requires that the provisions of Article 27 must be applied to all new buildings in Dubai other than villas.

Building design must comply with 'The Building Regulations and Facilities for the Disabled 2010, United Arab Emirates' released by Ministry of Public Works.
